This diagram shows an exploded perspective view of a device assembly. The components are numbered as follows:

- 30**: A central cylindrical component, possibly a motor or actuator, with a textured surface.
- 31**: A small circular component, likely a bearing or bush, located at the front of the assembly.
- 32**: A small circular component, likely a bearing or bush, located at the rear of the assembly.
- 33**: A bracket or housing component that encloses the central assembly.
- 34**: A small circular component, likely a bearing or bush, located at the front of the assembly.
- 35**: A small circular component, likely a bearing or bush, located at the rear of the assembly.
- 36**: A rectangular block component, possibly a base or support.
- 37**: A small circular component, likely a bearing or bush, located at the rear of the assembly.
- 38**: A rectangular block component, possibly a base or support.
- 39**: A rectangular block component, possibly a base or support.
- 40**: A small rectangular component, possibly a connector or plug.
- 41**: A circular component with a radial pattern, possibly a fan or a filter.
- 42**: A small circular component, likely a bearing or bush, located at the rear of the assembly.
- 43**: A small rectangular component, possibly a connector or plug.
- 44**: A rectangular block component, possibly a base or support.
- 45**: A small circular component, likely a bearing or bush, located at the rear of the assembly.
- 46**: A small circular component, likely a bearing or bush, located at the rear of the assembly.
